

Applied Scientometrics

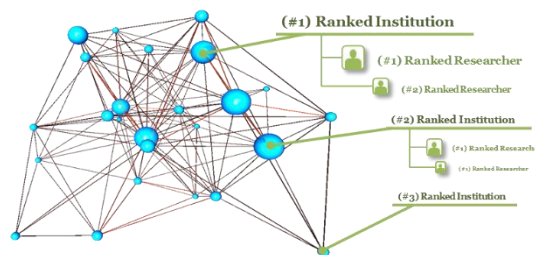

Scientometric Solutions for Government S&T Needs

What do you need to accomplish your agency's mission?

- **New Program Start:** How do you decide what new research program to start? How do you assess the maturity of that field of research?
- **Workshop Planning:** Who are the best researchers to invite to your workshop, symposium or conference? How can you be sure you aren't leaving out anyone important?
- **Portfolio Management:** Did you inherit a research portfolio? How do you know you have the best performers in your portfolio? How do you decide which to prune and how do you find which to add?
- **Identifying/Assessing Talent:** How do you find the top people in a field? Or young researchers with great potential? How "good" is the researcher that just sent you that white paper?
- **Assessing Technological Threat:** Is maintaining an asymmetric technological advantage important? How do you find lagging areas in US research fronts?
- **Do you have other difficult S&T problems you are struggling with?**

How can Scientometrics Help?

- **Collaboration maps** of institutional powerhouses
- **Rankings** of high performance talent
- **Analyses** of major **research fronts**
- **Trend analyses** of specific research progress

Why Choose Sciligent?

- We develop **customized solutions** to your needs because while we realize there are some commonalities, there still exists a wide diversity of agency-specific needs, where solutions need to be built from scratch
- We apply both **machine-generated** and analyst-generated methods to provide an optimal combination of **flexibility, efficiency and objectivity**
- As **SETA contractors** for the DoD we understand ongoing government S&T issues and can make **actionable recommendations**
- While we are a new company, in our founder's prior work, he constructed scientometric solutions for **12 different federal government agencies** in the DoD and IC
- Our personnel are **cleared** – please inquire for more details!
- **Client testimonials** available – please contact us for further details!
